

NATURAL DISASTERS INTENSITY ANALYSIS AND CLASSIFICATION

USING ARTIFICIAL INTELLIGENCE

PNT2022TMID06841

Run The Application:

- It will show the local host like where your app is running on <http://127.0.0.1:8000/>
- Copy that local host URL and open that URL in the browser. It does navigate me to where you can view your web page.
- Firstly, it shows home page with dashboard as home, introduction & open with cam.
- Click on open with cam button, Camera will be opened on the device. Then show some images of Natural Disasters like Cyclone, Floods, Wildfire & Earthquake, the model will predict images which belongs to that particular Category.
